REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: the prior art references either alone or in combination fails to teach or suggest the claimed subject matter such as: forming a jumper cable where "an outer conductor having an aluminum layer and a tin layer thereon, soldering at least a connector to the tin layer at one end of the cable", etc., as recited in details in independent claim 37. Further, the examiner agrees that there is no motivation to combine the references because the cooke et al reference directed to an electroplating as to form aluminum plated with tin but does not teach the forming a jumper coaxial cable or soldering the connector to tin layer associates therefrom. Therefore it would not been obvious to combine the references for forming the jumper coaxial as required by the present application's claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Minh Trinh whose telephone number is (571) 272-4569. The examiner can normally be reached on Monday -Thursday 8:00 am to 4:30 pm.
